March 2022

Dear Sir / Madam,

My name is Elias Matta. I write to you in regards to the position advertised on seek for a junior web developer. I am a recent graduate of a Junior Web Developer Bootcamp run by Generation Australia in conjunction with AcademyXi.

I believe i am the right applicant for the position as I am a competent learner and have a good grasp on concepts and syntax used in tech. I have a good attention to detail and great problem solving skills that apply critical thinking when seeking solutions.

My strength is to learn by doing and I have been able to create and debug projects to showcase my understanding in various technologies.

I have been a qualified chef for twenty five years and have an extensive resume. As i plan to begin a new career in tech the resume attached only includes my last current position in the field. A detailed resume of my cooking career can be found on my github portfolio site. The link to this is found at the bottom of the cover letter or resume.

I look forward to hearing from you.

Kind regards,
Elias Matta
